

Software Test Engineer - Job Description

SHARE OUR PASSION FOR TECH AND MAKE AN IMPACT

Looking for a fulfilling tech career? Think Coderus. Part of the Innovation Martlesham high-tech cluster of companies, we offer a startup culture in which to really grow your career. As part of an enthusiastic team, you'll be directly involved in the development of commercial software products for our clients, including a high-end international media company, and also our own innovative projects.

About us

Coderus is an established, innovative software development and consultancy business primarily focusing on pioneering embedded development and mobile applications for consumers. Our rapid growth and diversification into new vertical markets mean that we need to find talented recruits with ideas and the ability to develop our increasing portfolio of software projects and applications.

The Role

You will be responsible for QA testing software projects as part of the overall QA team, reporting to the Test Lead. The role covers the design and execution of UI test cases with the support and consultation with the QA and development teams, as well as the execution of manual functional tests if required and reporting defects and preparing reports when necessary.

Familiarity with software development and management methodologies would be useful. You will be trained in the use of the software management systems used by Coderus and Agile development as required.

This is a great opportunity to join a progressive, technology led team directly involved in the development of exciting commercial software projects for existing and new clients and our own internal projects.

Education

Ideally a 2;2 classification or better in Computer Science or related computing degree subject. We will also consider candidates with a lesser qualification, some relevant experience, aptitude and enthusiasm. Relevant QA/test analyst qualifications are also advantageous (e.g. ISEB/ISTQB).

SMART CODE SOLUTIONS

Coderus Ltd is a company incorporated in UK. **Registered Office:** Ross Building, Adastral Park, Martlesham, IP5 3RE, UK. **Reg. No.** 3532269 **VAT No.** GB 711 3283 72

Desirable Skills

- A natural curiosity
 - A good understanding of the software development process.
 - A good understanding of the business process.
 - Experience working in an Agile development environment.
 - Good judgement and diagnostic skills.
 - Good writing skills (for documenting, bug recording and final report preparation).
-
- The ability to work well in a team and as an individual.
 - The ability to work well under pressure and to tight deadlines.
 - Providing or supporting client issue resolution.
 - Adhering to a project's schedule.
 - Ability and willingness to work unsupervised
 - Have good communication skills, consultancy skills and an excellent grasp of the English language.
 - Experience in object orientated programming languages.
 - The ability to handle and configure client consumer devices, development boards and reference designs used for testing.

Essential Skills

- Familiarity with designing and running automated tests.
- Evaluating and increasing a test program's effectiveness.
- An enthusiasm to learn new ways to develop test programs, develop new skills and knowledge.
- Working with clients to support diagnostic and issue resolution.
- Working knowledge of iOS and Android devices.
- Basic home network knowledge for both wired and wireless set ups.
- Good working knowledge of Mac OS X & Windows platforms
- Experience of using standard defect management tools (Jira, Quality Center etc)
- ISTQB foundation certificate in software testing.

Location

Coderus is located within the Adastral Park campus, home to over 100 high-tech companies. Based east of Ipswich, Adastral Park offers excellent facilities (shops, a restaurant/deli, free car parking, gym on site, and various recreational facilities) and a green open environment in which to relax during lunch and break time.
